

## THE GUNS OF AUGUST *by Barbara Tuchman*

This study guide for your summer reading is due the second day of school. Also on that day we will have a summer reading quiz. You may not use the study guide on the quiz, but will be turning it in that day for a grade. All of the questions for the quiz will come from the study guide, so if you do a good job on the study guide, you should be okay on the quiz. But the key is to actually read the book. If you don't, and just try to skim for answers, you miss the context and won't understand what you're reading at all.

This book won the Pulitzer Prize when it was published in 1962. It is a famous historical work. It tells the story of a long-forgotten war and how that war began. Many historians view WWI as the real beginning of the 20<sup>th</sup> century and see its ending as the prelude to WWII.

This book will come up again in a unit we will study much later this year in the spring, the Cuban Missile Crisis. During that crisis, Kennedy had just read this book and talked about it to his advisors when they were deliberating about what to do at that time. It seems to have had a major impact on him and his handling of an event that was the closest we ever came to a nuclear war with the Soviet Union.

The author, Barbara Tuchman, is a marvelous writer. If you read the first chapter carefully, you will feel that you are actually present in Westminster Abbey at the funeral of the king.
